\* The performance data quoted is historical. Past performance is no guarantee of future results. Current performance may be higher or lower than the performance data quoted. The principal value and investment return of an investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemptions of Fund shares. Returns greater than 1 year are annualized. The total annual operating expenses as stated in the fee table of the Fund's prospectus dated October 28, 2021 is 1.94%, 2.69% and 1.69%, for Class A, Class C and Class I shares, respectively. Class A Shares are subject to a maximum sales charge of 5.00% imposed on purchases. For performance information current to the most recent month-end, please call 1-877-779-7462.

(a) Inception date is September 14, 2010 for Class A and Class I shares.

(b) Inception date is November 25, 2014 for Class C shares.

(c) The Bloomberg Barclays U.S. Aggregate Bond Index is a market capitalization-weighted index, meaning the securities in the index are weighted according to the market size of each bond type. Most U.S. traded investment grade bonds are represented. Municipal bonds and Treasury Inflation-Protected Securities are excluded, due to tax treatment issues. The index includes Treasury securities, Government agency bonds, mortgage-backed bonds, corporate bonds, and a small amount of foreign bonds traded in U.S. Dollars. Index returns assume reinvestment of dividends. Investors may not invest in an Index directly. Unlike the Fund's returns, Index returns do not reflect any fees or expenses.

(d) The Bloomberg Barclays Global Aggregate Bond Index is composed of the U.S. Aggregate Index, the Pan-European Index and the Japanese component of the Global Treasury Index. All issues must be fixed rate, nonconvertible and have at least one year remaining to maturity. Securities from countries classified as emerging markets are excluded. The index is weighted according to each country's market capitalization except for Japan, which is weighted by the market capitalization of the 40 largest Japanese government bonds. This Index has been selected as the Fund's new primary benchmark as it is more representative of the Fund's investment strategy and portfolio holdings. Index returns assume reinvestment of dividends. Investors may not invest in an Index directly. Unlike the Fund's returns, Index returns do not reflect any fees or expenses.

(e) The Reference Index is a benchmark comprised of 60% HFRU Hedge Fund Composite and 40% Bloomberg Barclays Global Aggregate Bond Index. The returns are calculated on a fully collateralized basis with full reinvestment. The HFRU Hedge Fund Composite USD Index is designed to be representative of the overal composition of the UCITS-Compliant hedge fund universe. It is comprised of all eligible hedge fund strategies; including, but not limited to equity hedge, event driven, macro, and relative value arbitrage.

(b) Inception date is November 25, 2014 for Class C shares.

(c) The S&P 500 Value Index is a market cap-weighted index that covers the complete market cap of the S&P 500 index. All S&P index stocks are represented in both and/or each Growth and Value index. The value factors used to determine a stock's value score are book value to price ratio, cash flow to price ratio, sales to price ratio and dividend yield. Index returns assume reinvestment of dividends. Investors may not invest in an Index directly. Unlike the Fund's returns, Index returns do not reflect any fees or expenses. This Index has been selected as Fund's new primary benchmark as it is more representative of the Fund's investment strategy and portfolio holdings.

(d) The Russell 1000 Index consists of the 1000 largest companies within the Russell 3000 index. Also known as Market Oriented Index, because it represents the group of stocks for which most active money managers choose. The returns for the index are total returns, which include reinvestment of dividends. Frank Russell Company indexes as a one-month total returns.

#### 1. ORGANIZATION

The Donoghue Forlines Tactical Income Fund, Donoghue Forlines Dividend Fund, Donoghue Forlines Risk Managed Income Fund, Donoghue Forlines Momentum Fund and Donoghue Forlines Tactical Allocation Fund (each a "Fund" and collectively the "Funds") each are a diversified series of shares of beneficial interest of Northern Lights Fund Trust (the "Trust"), a trust organized under the laws of the State of Delaware on January 19, 2005. The Trust is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Donoghue Forlines Tactical Income Fund Class A and Class I shares commenced operations on September 14, 2010. The Donoghue Forlines Dividend Fund Class A and Class I shares commenced operations on November 7, 2013. Class C shares of both the Donoghue Forlines Tactical Income Fund and Donoghue Forlines Dividend Fund commenced operations on November 25, 2014. Class A, Class C and Class I shares of the Donoghue Forlines Risk Managed Income Fund commenced operations on December 27, 2017. Class A, Class C and Class I shares of the Donoghue Forlines Risk Managed Income Fund commenced operations on December 23, 2016. The Donoghue Forlines Tactical Allocation Fund Class A, Class I shares commenced operations on April 6, 2018.

The Funds' investment objectives are as follows:

**Donoghue Forlines Tactical Income Fund** – total return from income and capital appreciation with capital preservation as a secondary objective.

**Donoghue Forlines Dividend Fund** – total return from dividend income and capital appreciation. Capital preservation is a secondary objective of the Fund.

**Donoghue Forlines Risk Managed Income Fund** – total return from income and capital appreciation with capital preservation as a secondary objective.

Donoghue Forlines Momentum Fund – capital growth with a secondary objective of generating income.

Donoghue Forlines Tactical Allocation Fund - long-term capital appreciation.

Each Fund currently offers three classes of shares: Class A shares, Class C shares and Class I shares. Class A shares are offered at net asset value plus a maximum sales charge of 5.00%. Class C shares and Class I shares are offered at net asset value. Each class of shares of the Funds have identical rights and privileges except with respect to arrangements pertaining to shareholder servicing or distribution, class-related expenses, voting rights on matters affecting a single class of shares, and the exchange privilege of each class of shares. The Funds' share classes differ in the fees and expenses charged to shareholders and minimum investment amounts. The Funds' income, expenses (other than class specific distribution fees) and realized and unrealized gains and losses are allocated proportionately each day based upon the relative net assets of each class. Class specific expenses are allocated to that share class.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Funds in preparation of their financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates. Each Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standard Codification Topic 946 "Financial Services – Investment Companies" including Accounting Standards Update 2013-08.

**Securities Valuation** – Securities listed on an exchange are valued at the last reported sale price at the close of the regular trading session of the primary exchange on the business day the value is being determined, or in the case of securities listed on NASDAQ at the NASDAQ Official Closing Price. In the absence of a sale, such securities shall be valued at the mean between the current bid and ask prices on the day of valuation. Futures and future options are valued at the final settled price or, in the absence of a settled price, at the last sale price on the day of valuation. Debt securities (other than short-term obligations) are valued each day by an independent pricing service approved by the Trust's Board of Trustees (the "Board")

based on methods which include consideration of: yields or prices of securities of comparable quality, coupon, maturity and type, indications as to values from dealers, and general market conditions or market quotations from a major market maker in the securities. Investments valued in currencies other than the U.S. dollar are converted to U.S. dollars using exchange rates obtained from pricing services. The independent pricing service does not distinguish between smaller-sized bond positions known as "odd lots" and larger institutional-sized bond positions known as "round lots". The Fund may fair value a particular bond if the advisor does not believe that the round lot value provided by the independent pricing service reflects fair value of the Fund's holding. Short-term debt obligations having 60 days or less remaining until maturity, at time of purchase, may be valued at amortized cost.

**Valuation of Underlying Funds** - The Funds may invest in portfolios of open-end or closed-end investment companies (the "Underlying Funds"). The Underlying Funds value securities in their portfolios for which market quotations are readily available at their market values (generally the last reported sale price) and all other securities and assets at their fair value to the methods established by the board of directors of the Underlying Funds.

Open-end investment companies are valued at their respective net asset values as reported by such investment companies. The shares of many closed-end investment companies, after their initial public offering, frequently trade at a price per share, which is different than the net asset value per share. The difference represents a market premium or market discount of such shares. There can be no assurances that the market discount or market premium on shares of any closed-end investment company purchased by the Funds will not change.

The Funds may hold securities, such as private investments, interests in commodity pools, other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These securities will be valued using the "fair value" procedures approved by the Board. The Board has delegated execution of these procedures to a fair value committee composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) advisor. The committee may also enlist third party consultants such as a valuation specialist at a public accounting firm, valuation consultant or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board has also engaged a third party valuation firm to attend valuation meetings held by the Trust, review minutes of such meetings and report to the Board on a quarterly basis. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

Fair Valuation Process – As noted above, the fair value committee is composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) advisor. The applicable investments are valued collectively via inputs from each of these groups. For example, fair value determinations are required for the following securities: (i) securities for which market quotations are insufficient or not readily available on a particular business day (including securities for which there is a short and temporary lapse in the provision of a price by the regular pricing source), (ii) securities for which, in the judgment of the advisor, the prices or values available do not represent the fair value of the instrument. Factors which may cause the advisor to make such a judgment include, but are not limited to, the following: only a bid price or an ask price is available; the spread between bid and ask prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities markets, such as the suspension or limitation of trading; (iii) securities determined to be illiquid; (iv) securities with respect to which an event that will affect the value thereof has occurred (a "significant event") since the closing prices were established on the principal exchange on which they are traded, but prior to the Funds' calculation of their net asset value. Specifically, interests in commodity pools or managed futures pools are valued on a daily basis by reference to the closing market prices of each futures contract or other asset held by a pool, as adjusted for pool expenses. Restricted or illiquid securities, such as private investments or non-traded securities are valued via inputs from the advisor based upon the current bid for the security from two or more independent dealers or other parties reasonably familiar with the facts and circumstances of the security (who should take into consideration all relevant factors as may be appropriate under the circumstances). If the advisor is unable to obtain a current bid from such independent dealers or other independent parties, the fair value committee shall determine the fair value of such security using the following factors: (i) the type of security; (ii) the cost at date of purchase; (iii) the size and nature of the Funds' holdings; (iv) the discount from market value of unrestricted securities of the same class at the time of purchase and subsequent thereto; (v) information as to any transactions or offers with respect to the security; (vi) the nature and duration of restrictions on disposition of the security and the existence of any registration rights; (vii) how the yield of the security compares to similar securities of companies of similar or equal creditworthiness; (viii) the level of recent trades of similar or comparable securities; (ix) the liquidity characteristics of the security; (x) current market conditions; and (xi) the market value of any securities into which the security is convertible or exchangeable.

Each Fund utilizes various methods to measure the fair value of all of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities that the Funds have the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Funds' own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following tables summarize the inputs used as of December 31, 2021 for the Funds' investments measured at fair value:

The Funds did not hold any Level 3 securities during the period.

\* Refer to the Portfolios of Investments for security or industry classifications.

**Security Transactions and Related Income** – Security transactions are accounted for on trade date. Interest income is recognized on an accrual basis. Discounts are accreted and premiums are amortized on securities purchased over the lives of the respective securities. Dividend income is recorded on the ex-dividend date. Realized gains or losses from sales of securities are determined by comparing the identified cost of the security lot sold with the net sales proceeds. The accounting records are maintained in U.S. dollars.

**Exchange Traded Funds** – The Funds may invest in exchange traded funds ("ETFs"). ETFs are a type of fund bought and sold on a securities exchange. ETFs trade like common stock and represent a fixed portfolio of securities. The Funds may purchase ETFs to gain exposure to a portion of the U.S. or a foreign market. The risks of owning ETFs generally reflect the risks of owning the underlying securities they are designed to track, although a potential lack of liquidity on an ETF could result in it being more volatile. Additionally, ETFs have fees and expenses that reduce their value.

**Exchange Traded Notes** – The Funds may invest in exchange traded notes ("ETNs"). ETNs are a type of debt security that is linked to the performance of underlying securities. The risks of owning an ETN generally reflect the risks of owning the underlying securities they are designed to track, although the lack of liquidity on an ETN could result in it being more volatile. Additionally, ETNs have fees and expenses that reduce their value.

**Dividends and Distributions to Shareholders** – Dividends from net investment income, if any, are declared and paid quarterly. Distributable net realized capital gains, if any, are declared and distributed annually. Dividends from net investment income and distributions from net realized gains are recorded on the ex-dividend date and are determined in accordance with federal income tax regulations, which may differ from GAAP. These "book/tax" differences are considered either temporary (i.e., deferred losses, capital loss carry forwards) or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment. Temporary differences do not require reclassification. These reclassifications have no effect on net assets, results from operations or net asset value per share of the Funds.

**Federal Income Tax** – The Funds intend to comply with the provisions of the Internal Revenue Code that are applicable to regulated investment companies and to distribute substantially all of their taxable income and net realized gains to shareholders. Therefore, no federal income tax provisions are required. The Funds recognize the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities.

Management has analyzed the Funds' tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years ended June 30, 2019 - 2021, or expected to be taken in the Funds' June 30, 2022 tax returns. The Funds identify their major tax jurisdictions as U.S. federal and Ohio, and foreign jurisdictions where the Funds make significant investments. The Funds are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

**Expenses** – Expenses of the Trust that are directly identifiable to a specific fund are charged to that fund. Expenses which are not readily identifiable to a specific fund are allocated in such a manner as deemed equitable, taking into consideration the nature and type of expense and the relative sizes of the funds in the Trust.

**Indemnification** – The Trust indemnifies its Officers and Trustees for certain liabilities that may arise from the performance of their duties to the Trust. Additionally, in the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties and which provide general indemnities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the risk of loss due to these warranties and indemnities appears to be remote.

#### 3. INVESTMENT TRANSACTIONS

### 4. INVESTMENT ADVISORY AGREEMENT AND TRANSACTIONS WITH RELATED PARTIES

Donoghue Forlines LLC serves as the Funds' investment advisor (the "Advisor").

Pursuant to investment advisory agreements with the Trust on behalf of the Funds, the Advisor, under the oversight of the Board, directs the daily operations of the Funds and supervises the performance of administrative and professional services provided by others. As compensation for its services and the related expenses borne by the Advisor, the Donoghue Tactical Income Fund, Donoghue Forlines Dividend Fund and Donoghue Forlines Momentum Fund pay the Advisor an investment advisory fee, computed and accrued daily and paid monthly, at an annual rate of 1.00% of the respective Fund's average daily net assets. As compensation for its services and the related expenses borne by the Advisor, the Donoghue Forlines Risk Managed Income Fund pays the Advisor an investment advisory fee, computed and accrued daily and paid monthly, at an annual rate of 0.65% of the Fund's average daily net assets. As compensation for its services and the related expenses borne by the Advisor, the related expenses borne by the Advisor, the Donoghue Forlines Risk Managed Income Fund pays the Advisor an investment advisory fee, computed and accrued daily and paid monthly, at an annual rate of 0.65% of the Fund's average daily net assets. As compensation for its services and the related expenses borne by the Advisor, Donoghue Forlines Tactical Allocation Fund pays the Advisor an investment advisory fee, computed and accrued daily and paid monthly, at an annual rate of 0.75% of the Fund's average daily net assets. For the six months ended December 31, 2021, the Advisor earned fees as follows:

	Man	agement Fee
Donoghue Forlines Tactical Income Fund	\$	313,451
Donoghue Forlines Dividend Fund		232,429
Donoghue Forlines Risk Managed Income Fund		213,935
Donoghue Forlines Momentum Fund		81,942
Donoghue Forlines Tactical Allocation Fund		188,417

The Advisor has contractually agreed to waive all or part of its management fees and/or make payments to limit the expenses of the Donoghue Forlines Tactical Income Fund, Donoghue Forlines Dividend Fund, Donoghue Forlines Risk Managed Income Fund and Donoghue Forlines Momentum Fund (exclusive of any front-end or contingent deferred loads; brokerage fees and commissions; acquired fund fees and expenses; fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including, for example, option and swap fees and expenses); borrowing costs (such as interest and dividend expense on securities sold short); taxes; and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers

(other than the Advisor))) at least until October 31, 2022, so that the total annual operating expenses do not exceed 2.25%, 3.00% and 2.00% of the average daily net assets of Class A, Class C and Class I shares, respectively, of each of the Donoghue Forlines Tactical Income Fund, Donoghue Forlines Dividend Fund, Donoghue Forlines Donoghue Forlines Risk Managed Income Fund, and the Donoghue Forlines Momentum Fund. The total operating expenses do not exceed 1.45%, 2.20% and 1.20% of the average daily net assets of Class A, Class C and Class I shares, respectively, of the Donoghue Forlines Tactical Allocation Fund. Contractual waivers and expense payments may be recouped by the Advisor from the Funds, to the extent that overall expenses fall below the expense limitation, within three years of the reimbursement.

For the six months ended December 31, 2021 Donoghue Forlines Momentum Fund, and the Donoghue Forlines Tactical Allocation Fund waived \$29,418, and \$24,599 respectively. The fees are subject to recapture. No other funds waived any fees.

During the six months ended December 31, 2021 there were no advisory fees recaptured.

Fees waived or expenses reimbursed may be recouped by the Adviser from the Funds for a period up to three years from the date the fee or expense was waived or reimbursed. However, no recoupment payment will be made if it would result in the Funds exceeding the contractual expense limitation described above. The following table shows the remaining waived expenses subject to potential recovery which expire in:

Fund	June	e 30, 2024
Donoghue Forlines Momentum Fund	\$	35,648
Donoghue Forlines Tactical Income Fund		6,690

Distributor – The distributor of the Funds is Northern Lights Distributors, LLC (the "Distributor" or "NLD"). The Board has adopted, on behalf of the Funds, the Trust's Master Distribution and Shareholder Servicing Plan (the "Plan"), as amended, pursuant to Rule 12b-1 under the Investment Company Act of 1940, to pay for certain distribution activities and shareholder services. Under the Plan, each Fund may pay 0.25% per year of the average daily net assets of Class A shares and 1.00% per year of the average daily net assets of Class C shares for such distribution and shareholder service activities. For the six months ended December 31, 2021 the Funds incurred distribution fees as follows:

	C	Class A	Class C
Donoghue Forlines Tactical Income Fund	\$	6,370	\$ 6,521
Donoghue Forlines Dividend Fund		17,266	43,618

In addition, certain affiliates of the Distributor provide services to the Funds as follows:

<u>Ultimus Fund Solutions, LLC ("UFS"</u>), an affiliate of the Distributor, provides administration, fund accounting, and transfer agent services to the Trust. Pursuant to separate servicing agreements with UFS, the Funds pay UFS customary fees for providing administration, fund accounting and transfer agency services to the Funds. Certain officers of the Trust are also officers of UFS, and are not paid any fees directly by the Funds for serving in such capacities.

<u>Northern Lights Compliance Services, LLC ("NLCS"</u>), an affiliate of UFS and the Distributor, provides a Chief Compliance Officer to the Trust, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Trust. Under the terms of such agreement, NLCS receives customary fees from the Funds.

<u>Blu Giant, LLC ("Blu Giant")</u>, an affiliate of UFS and the Distributor, provides EDGAR conversion and filing services as well as print management services for the Funds on an ad-hoc basis. For the provision of these services, Blu Giant receives customary fees from the Funds.

#### **5. SECURITIES LENDING**

Under an agreement (the "Securities Lending Agreement") with the Securities Finance Trust Company ("SFTC"), the Funds can lend their portfolio securities to brokers, dealers and other financial institutions approved by the Board to earn additional income. For each securities loan, the borrower shall transfer collateral in an amount determined by applying the margin to the market value of the loaned available securities (102% for same currency and 105% for cross currency). Collateral is invested in highly liquid, short-term instruments such as money market funds in accordance with the Funds' security lending procedures. The Funds continue to receive interest or dividends on the securities loaned. The Funds manage credit exposure arising from these lending transactions by, in appropriate circumstances, entering into master netting agreements and collateral agreements with third party borrowers that provide in the event of default (such as bankruptcy or a borrower's failure to pay or perform), the right to net a third-party borrower's rights and obligations under such agreement and liquidate and set off collateral against the net amount owed by the counterparty.

The following table is a summary of the Portfolios' securities loaned and related collateral which are subject to a netting agreement as of December 31, 2021:

This amount is offset by a liability recorded as "Collateral on securities loaned." At December 31, 2021, the Donoghue Forlines Momentum Fund, and Donoghue Forlines Dividend Fund, Donoghue Forlines Risk Managed Fund, Donoghue Forlines Momentum Fund, and Donoghue Forlines Dividend Fund, Donoghue Forlines Risk Managed Fund, Donoghue Forlines Tactical Income Fund, Donoghue Forlines Dividend Fund, Donoghue Forlines Risk Managed Fund, Donoghue Forlines Tactical Income Fund, Donoghue Forlines Risk Managed Fund, Donoghue Forlines Momentum Fund, and Donoghue Forlines Dividend Fund, Donoghue Forlines Risk Managed Fund, Donoghue Forlines Momentum Fund, and Donoghue Forlines Tactical Allocation Fund received non-cash collateral of \$7,932,338, \$4,365,670, 7,667,918, \$2,386,836, and \$5,088,785, respectively. The non-cash collateral consists of short-term investments and long-term bonds and is held for benefit of a Portfolio at the Portfolio's custodian. A Portfolio cannot pledge or resell the collateral.

### 6. DISTRIBUTIONS TO SHAREHOLDERS AND TAX COMPONENTS OF CAPITAL

The tax character of distributions paid during the fiscal years ended June 30, 2021 and June 30, 2020 was as follows:

	For the period ended June 30, 2021

Donoghue Forlines Tactical Allocation Fund		-		-	(5,527,613)		-	-		5,766,405	238,792

The difference between book basis and tax basis undistributed net investment income, accumulated net realized gain/(loss), and unrealized appreciation from investments is primarily attributable to the tax deferral of losses on wash sales.

Late year losses incurred after December 31 within the fiscal year are deemed to arise on the first business day of the following fiscal year for tax purposes. The Donoghue Forlines Momentum Fund incurred and elected to defer such late year losses of \$79,143.

At June 30, 2021, the Funds had capital loss carry forwards for federal income tax purposes available to offset future capital gains and capital losses utilized as follows:

Fund	Short-Term	Long-Term	Total	CLCF Utilized	
Donoghue Forlines Tactical Income Fund	\$ 18,360,343	\$ -	\$ 18,360,343	\$ -	
Donoghue Forlines Dividend Fund	88,063,056	33,177,146	121,240,202	-	
Donoghue Forlines Risk Managed Income Fund	26,091	815,952	842,043	547,273

Donoghue Forlines Tactical Allocation Fund	5,527,613	-	5,527,613	1,335,540	

Permanent book and tax differences, primarily attributable to the reclassification of Fund distributions, tax treatment of net operating losses and the tax adjustments for prior year tax returns resulted in reclassifications for the Funds for the fiscal year ended June 30, 2021 as follows:

	I	Paid In	Accumulated

#### 8. INVESTMENTS IN UNDERLYING INVESTMENT COMPANIES

The Donoghue Forlines Tactical Income Fund (the "Fund") currently invests a portion of its assets in the iShares 0-5 Year High Yield Corporate Bond ETF (the "Security"). The iShares Fund seeks to track the investment results of an index composed of U.S. dollar-denominated, high yield corporate bonds with remaining maturities of less than five years. The Fund may redeem their investments from the Security at any time if the Advisor determines that it is in the best interest of the Fund and their shareholders to do so. The performance of the Fund will be directly affected by the performance of the Security. The financial statements of Securities, including the portfolio of investments, can be found at the Securities and Exchange Commission's ("SEC") website www.sec.gov and should be read in conjunction with the Funds' financial statements. As of December 31, 2021, the percentage of the Donoghue Forlines Tactical Income Fund's net assets invested in the iShares 0-5 Year High Yield Corporate Bond ETF was 43.2%.

#### 9. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates presumption of control of the fund, under Section 2(a)(9) of the 1940 Act. As of December 31, 2021, the shareholders listed below held, for the benefit of others, more than 25% of an individual Fund and may be deemed to control that Fund. The Funds have no knowledge as to whether all or any portion of the shares owned, by the parties noted below, are also owned beneficially by any party who would be presumed to control the respective Funds.

Shareholder	Fund	Percent
TD Ameritrade, Inc.	Donoghue Forlines Tactical Income Fund	34.26%
Pershing LLC	Donoghue Forlines Dividend Fund	35.07%
Matrix Trust Company	Donoghue Forlines Momentum Fund	46.13%
National Financial Services	Donoghue Forlines Risk Managed Income Fund	65.74%
Matrix Trust Company	Donoghue Forlines Tactical Allocation Fund	36.75%

### **10. MARKET AND GEOPOLITICAL RISK**

The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years may result in market volatility and may have long term effects on both the U.S. and global financial markets. The current novel coronavirus (COVID-19) global pandemic and the aggressive responses taken by many governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines or similar restrictions, as well as the forced or voluntary closure of, or operational changes to, many retail and other businesses, has had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your Fund investment.

Please refer to each Fund's prospectus and the statement of additional information for a full listing of risks associated with each Fund's investment strategies.

### **11. SUBSEQUENT EVENTS**

Subsequent events after the date of the Statements of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has determined that no events or transactions occurred requiring adjustment or disclosure in the financial statements.

### Donoghue Forlines Funds EXPENSE EXAMPLE (Unaudited) December 31, 2021

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchases and redemptions fees on certain redemptions; (2) ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from July 1, 2021 through December 31, 2021.

### Actual Expenses

The "Actual" columns in the table below provide information about actual account values and actual expenses. You may use the information below; together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by 1,000 (for example, an 8,600 account value divided by 1,000 = 8.6), then multiply the result by the number in the table under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

#### Hypothetical Example for Comparison Purposes

The "Hypothetical" columns in the table below provide information about hypothetical account values and hypothetical expenses based on the Funds' actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Funds' actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balances or expenses you paid for the period. You may use this information to compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), or redemption fees. Therefore, the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.
